Note: Cold Outreach excluded — 0 of 724 leads won, so its win rate is blank and Power BI omits it from the chart.

Does responding to a lead faster actually improve the odds of winning it?

Win Rate %
by Response Bucket

Note : Over 3 days excluded - Only 1 lead (of 7,000) falls into this bucket, too small a sample for a meaningful win rate.

Who's performing well on the team, and where is revenue - and lost revenue - concentrated?
